UK NOTAM A SERIES CHANGES

1 With effect from **1 September 2022** the following aerodromes will move from the UK A series distribution list to the P series distribution list. This temporary change is required to alleviate the high volume of A Series NOTAM:

- Southend (EGMC)
- Norwich (EGSH)
- Liverpool (EGGP)
- Cambridge (EGSC)
- Cardiff (EGFF)

Any existing A series NOTAM for these aerodromes will be cancelled and reissued as P series with effect from **1 September 2022**.

Sponsors of these aerodromes that require a NOTAM over this date are requested to submit 2 proposals. 1 up until **31 August 2359**, the other from **1 September 0000**. This will allow the NOTAM to be issued in the correct series and reduce the number of NOTAM to be cancelled and reissued.

2 Gen 3.1 UK NOTAM Series table amended as follows:

Series	Content
A	Aerodromes: Aberdeen/Dyce, Belfast Aldergrove, Belfast/City, Edinburgh, Glasgow, Inverness, London Gatwick, London Heathrow, London Luton, London Stansted, Manchester International, Prestwick, and Sumburgh.
P	Aerodromes: Cambridge, Cardiff, Liverpool, Norwich, and Southend.

3 Further series changes are being discussed for implementation from **January 2023**.
